

Slab Permit Guidelines

Building Permits are to be applied for using the City of Sanford online portal:

www.citizenserve.com/sanford

SUBMITTAL REQUIREMENTS

(The following paperwork shall be uploaded in .pdf format for review)

- Site plan indicating proposed location of slab, size measurements and distance to property line(s).

Please Note:

** For slabs under non-engineered structures, such as a shed 120 square feet or less in size, a separate Slab Permit is required in addition to the Shed Permit.

** For slabs under engineered structures, such as a screen enclosure, room or building, the slab can be incorporated into the Building design and a separate Slab Permit is not required.
